About HighLite

The HighLite project aims to substantially improve the competitiveness of the EU PV manufacturing industry by developing knowledge-based manufacturing solutions for high-performance low-cost modules with excellent environmental profiles (low CO₂ footprint, enhanced durability, improved recyclability). In HighLite, a unique consortium of experienced industrial actors and leading institutes will work collectively to develop, optimize, and bring to high technology readiness levels (TRL 6-7) innovative solutions at both cell and module levels.

Publishable summary

D1.4 – “Second Revised Project Management Plan”, is a confidential deliverable related to the Project Management (WP1) of the HighLite project (grant agreement No 857793).

This deliverable report is a second revision of the previously submitted “First revised Project Management Plan” (D1.3, M18) and is relevant for the final phase of the project before its official end date on 30 March 2022.

Overall, the document contains:

- An update on the composition of the different management bodies including the Executive Board (EB), Steering Board (SB), Advisory Board (AB), and Exploitation Board (ExB).
- An overview of the planned Consortium Meetings.
- The latest update of the Gantt Chart of the project following changes made in the 2nd Amendment to the Grant Agreement.
- An updated assessment of critical implementation risks.
- An updated list of the mitigation measures proposed and already implemented for the different critical implementation risks.
